I am returning the three 1799 Cents today
The two at 20c are very fine but do not want
to go any 13cs or 135c the one at 7c would do
very nicely only it is corroded and I do not
want to buy any more corroded pieces. If
you have one later on (not corroded) at about
12c or so drop me a postal and let me know
and if I have not got one before that will probaly want
it. When you have an auction sale again
please send me a Cat Thanking you very
much for your trouble I remain
